

04 eduroam Policy

eduroam Policy

Global Policy

The Global eduroam Governance Committee has created a global policy for national roaming operators (NROs), which they term the "[eduroam Compliance Statement](#)".

AARNet, as the Australian eduroam NRO, is a signatory to this policy.

National Policy

The current national policy for eduroam AU is version 4.2

[eduroam policy \(November 2010\)](#)

The eduroam AU national policy is under revision in order to align terminology with the global policy, to define policy items more clearly (e.g. eligibility) and to align with AARNet's operational objectives, with a final version yet to be proposed.

For a pre-endorsement review of the revisions, please contact AARNet.
